HEAVY DUTY TILE CLEANER is used for acid resisting interior and exterior ceramic tiled floor and walls.

RECOMMENDED SURFACES

Glazed floor tile	√ (1)
Unglazed floor tile	√ (1) (2)
Quarry	√ (1) (2)
Stone	√ (1) (2)
Slate	√ (1) (2)
Brick	√ (1) (2)
Terracotta	√ (1) (2)

Where:

√ : Suitable

(1) : Dilute as necessary

(2) : Pre-Wet surface prior to application to reduce absorption
VOC.content:60.59g/l

Pack size:

500 ml and 5 litters

INSTRUCTION FOR USE:

- Dilute to the correct ratio as required:
- Light cleaning on acid resistant surface such as glazed and unglazed tiles, bricks, slate, stones and quarry tiles use 1 part of HEAVY DUTY TILE CLEANER to 4 parts clean water.
- Heavily stained areas may require an undiluted solution to be applied.

NOTE:

- Before applying on working stain surface always test initially on small inconspicuous area. Dilution ratio may be increase or decrease as per nature of working surface.
- Generously apply the mix solution of water and heavy duty tile cleaner on the floor and walls to be cleaned.
- Leave in contact with the area approx 1 to 2 minutes.
- Using a stiff bristled brush or a scouring pad, thoroughly scrub the area treated with the solution.
- Spread up the solution and rinse well with water up to 3 to 4 times until all traces of the solution have been removed
- Heavily stained areas may require successor application of HEAVY DUTY TILE CLEANER.
- Do not use on new fields until the adhesive and grout are perfectly cured.
- Instantly remove coincidental dust by washing thoroughly with enough water

HEAVY DUTY TILE CLEANER

Cleaner for removal of cement stains

LIMITATION

- Possibilities of discolour stones and tiles which is not acid resistant.
- Does not work against stubborn and solvent stain.
- We cannot use on extremely permeable tiles and stone because these are not resistant to acid.
